

A Time to Invest

in Australia's most disadvantaged children, young people and their families

The problems experienced by children, young people and families are too often compounded by poor quality, and at best patchy service responses.

Reform of Australia's child and family welfare system requires a comprehensive, strategic and long term planning approach, by all levels of government, non-government agencies and the community itself.

A Time to Invest paints a picture of how we might establish opportunities to empower and enrich Australia's families and children.
